## Prescription pre-payment certificates

From 1 July, there is a change to prescription pre-payment certificates (PPC). The four-month PPC is being replaced by a three-month PPC which will cost £26.85. Patients buying the yearly PPC costing £98.70 will have the option to pay for this by ten direct debit instalments of £9.87 a month as well as by a single payment. This should make the PPC more affordable for many people.
